

# A Culture OF HEALTH

...is created through reciprocal empathy and shared symbiotic relationships between people and communities. It recognizes that health is multi-faceted; it is unique to every individual and encompasses more than just our physical well-being.

# Individual POSSIBILITIES

Individuals have all possibilities open to them to achieve their ideal existence. Through shared experiences, art, and storytelling, people connect and accept each other.

CULTURE OF HEALTH  
*Cohort 5*

# Voices ARE HEARD

Organizations work to remove structural oppression by centering the voices of their communities. They recognize the well-being of their staff is important and must prioritize it as much as the mission.

OUR DEFINITION OF A  
CULTURE OF HEALTH  
*Cohort 5*

# Community VALUES FLOURISH

Communities value intergenerational knowledge. They center inclusiveness and self-determination to allow everyone to flourish. Thriving and healing are driven by community voices and feelings.

OUR DEFINITION OF A  
CULTURE OF HEALTH

# Acknowledging THE TRUTH

Our governments are based on acknowledging the truth of historical inequities and reconciliation as a pathway forward. Governments are responsive to the people they represent, and accountability measures are used to serve the people, not uphold systems of oppression.

OUR DEFINITION OF A  
CULTURE OF HEALTH  
*Cohort 5*

# Thriving FOR ALL

A Culture of Health requires dialogue and collaboration between individuals, organizations, communities, and government to create conditions for thriving and well-being for all.
